	1. Installations.	
	a) All the cranes in the Port of ODESSA are new	
L	For a ship of about 150	
	metres in length there are three cranes, each with a capacity of bet-	
	ween 8 to 20 tons.	
Г	b) Slowness in loading ships in ODESSA is very marked.	
		25X1
	c) There is a new electric power station in the Port of ODESSA	
	with 5 generators (see Item 2 of Plan A attached).	
1	d) All cargoe is consigned by the Russian company ITFLOT.	
		25 X 1
	2. Security.	
	a) Security on approaching ODESSA is not so strict	
		25 X 1
	When leaving ODESSA ships have to keep	
	away from the CRIMBA, especially from SEBASTOPOL. Instead of following	
	the normal course from ODESSA to KERCH of 345 miles they have to do a	
	course of 450 miles and enter KERCH from the South.
